I work for my own business while I was serving in the military, I publish creative apps which gained high rates and +100k downloads on playstore.

### Brand tech., Mansoura — Android developer

Jan 2018 - July 2018

I have worked with Brand tech. startup as Android developer, Implemented many Android functions like Audio, Camera, Video playback and RESTFUL API.

### Business Monk, Mansoura —Android developer

Apr 2017 - Nov 2017

I had my great start while I was still a student, I worked on great projects ideas and had implemented a lot of different functions using many features like Canvas, MVC and we'd most focused on great marketing ideas like loyalty systems and CMS.

## FAVOURITE PROJECTS

### Emoji Switcher — [Uptodown](#)(400K)

*Best Root App on the Market.* It does the magic changing the Phone's stock Emoji to any custom emoji with few clicks.

### Fawadny —

I've worked on building the Android App using MVVM design pattern, Dagger2 DI, Live data, ViewModel, DataBinding

### Raven Keyboard — [Playstore](#)

Forked the stock Android latin input method and modified it to add customized features of my own.

### Kwafira —

Services providing app connecting Providers with customers, Used MVVM, LiveData, ViewModels, DataBinding and Google Maps and Directions API for tracking roads.

### Emoji Switcher No Root For Samsung (PAID 5\$)— [Playstore](#)

Same as the other Emoji Switcher Magic but it's for unrooted Samsung devices, I used merchant account and implement IAP to purchase premium Emojis.
